

## Clearing Point – Language Instruction

On the 1st March 2018 the Administrative District Office of Böblingen installed a Clearing Point – Language Instruction for the district. The team is firstly responsible for developing data banks on the topic of language instruction, preparing language course statistics, handling applications and billing for language support programmes and preparing reviews of language course formats. Secondly, refugees and migrants are given advice relating to language instruction options, and language courses are coordinated. Furthermore, the Clearing Point co-organises committees and events surrounding the topic of language instruction.

Their contact representatives are Jana Honer and Ramona Weeck.
